## **SINGING BOWLS & GONGS**

### **MUSIC FOR RELAXATION & MEDITATION**

### **TO ENJOY THE WORLD OF VIBRATING SOUNDS AT THE BODY !**

The innovative wellbeing **VIBRATION SOUND MAT** transforms a musical experience into tangible vibrations. It is quickly and easily applicable in the private sector, in therapy applications, in wellness areas of hotels and health resorts - to feel good, meditate and relax. It offers numerous applications as a harmonious stand-alone offer, as a targeted sound supplement for sound massages with singing bowls and gongs, and as an „accompanying sound carpet“ during a therapeutic treatment that underlines the versatility of the vibration sound mat.

Since the gentle sound vibrations in the water balance of the body area spread, and thus provide relaxation in the body, a sound session on the sound mat is also ideally suited as a preparation for therapeutic measures. With the simple operation of the wellbeing **VIBRATION SOUND MAT**, there is also the often-desired option of enjoying a **SOUND MASSAGE** alone, without the assistance of another person.

About an external sound source, eg. CD player, stereo, PC, mobile phone (also via BlueTooth), the desired sounds in the supplied control unit are played. The built-in, special structure-borne sound transmitters convert the music into tangible vibration. The vibrations of the sound mat can be enjoyed lying on the back, or on the stomach. Speech meditations with music are best enjoyed with a headphone connected to the external audio source.

The surface of the sound mat consists of easy-care, washable synthetic leather. The sound mat can be rolled up and therefore easily transported in the transport bag offered as an accessory. For optimal use of the wellbeing **VIBRATION SOUND MAT**, Polyglobe Music offers a rich music program: music with singing bowls & gongs, music for meditation or relaxation, guided language meditation on many topics.

The following mat models are available:

#### **Model: WKM6**

Wellness vibration sound mat with **SIX** sound transmitters flexibly installed in the mat, and an external controller with amplifier.

The music is played via a supplied connection cable, from existing players, such as: CD player, stereo. Or via the BlueTooth connection of smart phone, tablet and PC. There is no voltage in the mat itself.

L: 200 cm, W: 60 cm

Weight: approx. 5.50 kg

#### **MODEL: WKM12**

Wellness vibration sound mat with **TWELVE** sound transmitters flexibly installed in the mat, and an external control unit with amplifier.

The music is played via a supplied connection cable, from existing players, such as: CD player, stereo. Or via the BlueTooth connection of smart phone, tablet and PC. There is no voltage in the mat itself.

L: 200 cm, W: 60 cm

Weight: 6.50 kg

#### **TRS1**

Cotton transportbag with belt for mobile use of the mat (accessoriy for WKM6 and WKM12).

Test the new wellbeing **VIBRATION SOUND MAT** and arrange a demonstration with us, we are happy to advise you!
